

Annotations

On the View tab, ensure Annotations is ticked and click on Annotations in the Dimensions pane.

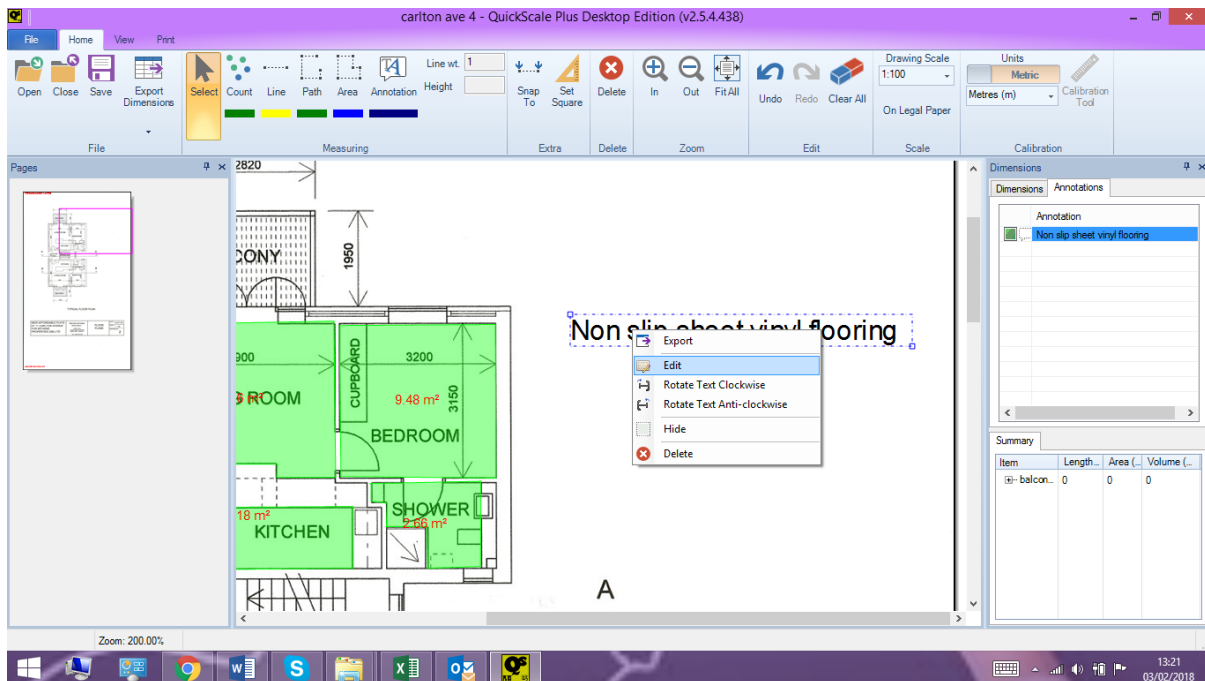

Click on the Annotations button on the toolbar then click on the drawing where you want the text to be.

Type in the text and click OK.

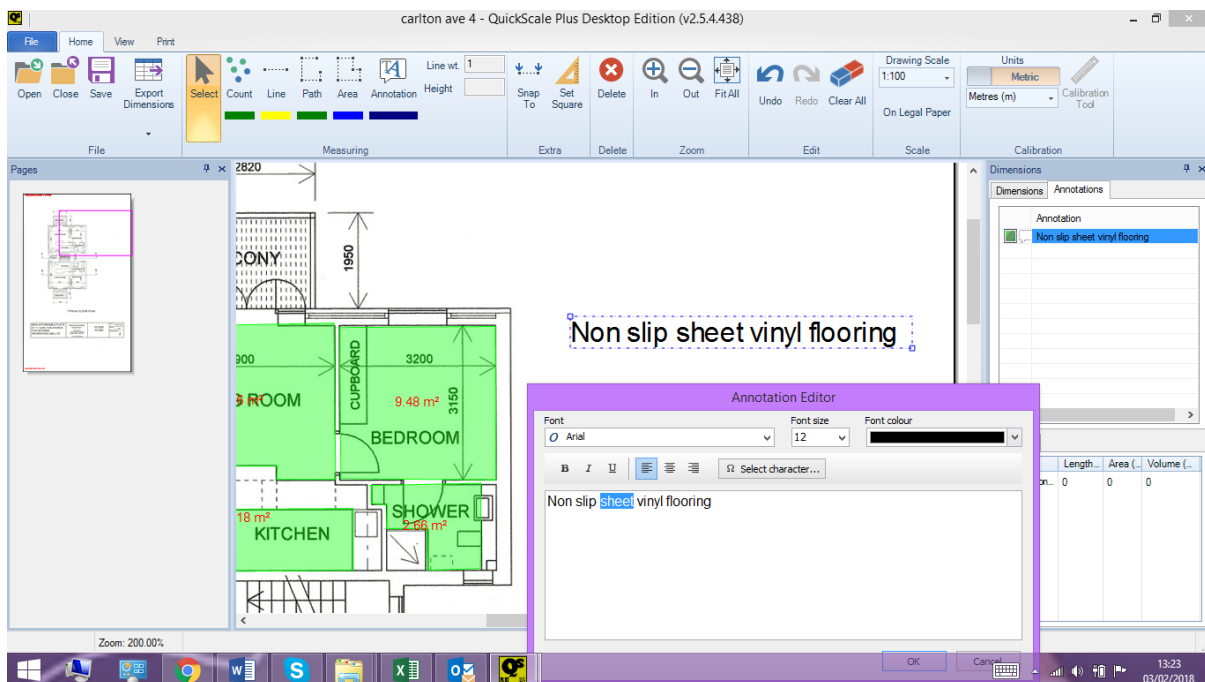

To edit, rotate or hide the text, click on Select on the toolbar then right click on the text on the drawing.

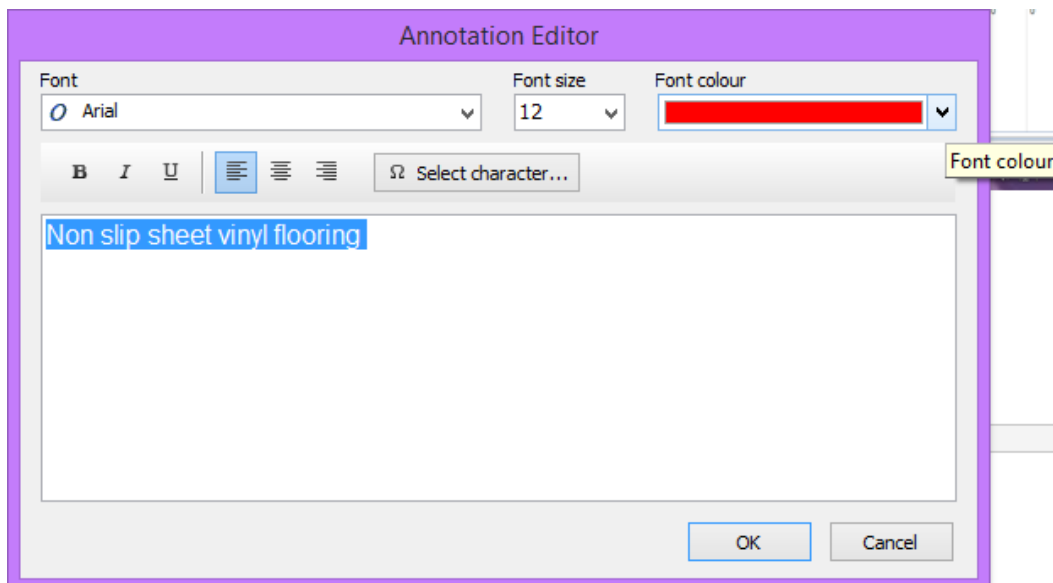

To move the text, click on Select on the toolbar then click and drag it to the new position.

To edit the text, right click on the text on the drawing, select Edit and make changes in the text box.

To change the colour, size or font of the text, highlight the text first, then make the changes. Click OK.

Kind regards

The QuickScale Team
